MyConcern® is our simple to use, safe and secure software for recording and managing all safeguarding concerns. The system enables all staff to record any safeguarding concern, safe in the knowledge that a proper record has been made and that their safeguarding lead has been automatically notified. It also equips the designated safeguarding lead to assess each concern and manage any ongoing action that needs to be taken.

MyConcern® was designed with the support of teaching professionals and meets (and often exceeds) all DfE statutory guidance and all OFSTED and Estyn inspection standards. It is constantly updated to reflect national good practice in schools and 'lessons learned', including Serious Case Reviews.

> " Now that we have every school in the area using MyConcern we have a great opportunity to share information in a secure environment and enhance safeguarding arrangements across all of our schools. "
>
> — Chair, Chesil Education Partnership

> " The software effectively pays for itself in productivity savings! This is in addition to the improved safeguarding management and peace of mind that it brings. "
>
> — Headteacher, Barnet

CYBER ESSENTIALS

Key Features

- Simple and easy for staff to record and manage any safeguarding or well-being concern
- Gives staff the option to direct the concern to the most appropriate person/team
- Accessible securely from any web-enabled device
- Automatically notifies the Designated Safeguarding Lead (DSL) of any new concerns
- Equips the DSL to closely monitor and manage all concerns
- Automatically builds a chronology for all concerns
- Enables the recording of decisions and the allocation of staff actions
- Allows the creation of a 'Team Around the Child', including secure information sharing and joint working with trusted external partners
- Secure instant messaging between team members within the software
- Links to your local Management Information System

Information Security

- A priority for us and all of our users
- School controlled role-based access
- Secure data transmission
- Data storage in secure EEA data centre

Key Benefits

- Intuitive and easy to navigate – little or no training required
- Gives staff confidence that their concerns have been fully recorded
- Helps to identify emerging risks and trends
- Minimises the need for paper records
- Ensures compliance with all current legislation, standards and guidance
- Allows a school to meet all of its safeguarding obligations
- Provides clear and auditable evidence for Ofsted/Estyn inspections

Powerful Reporting

- Powerful reporting tools deliver management reports for senior leaders, governing bodies, local authorities, school pyramids and other clusters
- Comprehensive data dashboards enable the early identification of safeguarding risks and trends across a wide range of concerns
